Bio: Peggy Mintun is a visual artist and designer from Columbus, Ohio. Her art is a communication to you about her life, but it is open to your interpretation. Most of her art is abstract, emotional canvases, where she lets nonrepresentational shape and intense color tell a story to evoke emotions. Her work is provocative: you may see it, or maybe not. But you have to really look at it. It is like something is almost there, almost on the tip of your tongue or the brink of your thoughts, and then sometimes you just know. It is chaos. She uses a chaotic process to create abstract narratives about emotions. It is poetry in contrast to the prose of realism.

Peggy is a member of Energy Art Movement Collective (an international collective), CAW (Creative Arts of Women) Collective, the AbX (abstract expressionism) Collective, and founder of 4bstr4ct4rt (an international abstract collective). She also owns and curates the international arts magazine, Sublime Rush and enjoys interviewing notable people/artists for both Sublime Rush and Omnibucket.
